

# ACADEMIC ADVISING

UNIVERSITY of WISCONSIN  
**UWMILWAUKEE**  

# What is Academic Advising?

Academic advising is a collaborative process between you and your advisor. Your academic advisor is a professional staff member whose purpose is to help you get the most out of your college experience. Working closely with your advisor can help you set and achieve goals, connect with campus resources, and make responsible decisions consistent with your interests, goals, abilities, and degree requirements.

## What can I expect from my advisor?

- Care, respect, and support as you explore and define academic, career, and personal goals.
- Assistance with academic planning that is consistent with your values, interests, and strengths.
- Accurate information regarding academic requirements, University policies and procedures, and campus resources.
- Guidance as you begin to understand the nature and purpose of higher education and your role as a student.

## What is expected of me as a student?

- Understand that you are ultimately responsible for creating your educational, life, and career plans.
- Take the initiative to access, understand, and utilize campus resources to gather needed information and make informed decisions.
- Maintain open and honest communication with your advisor.
- Take responsibility for choices you make as a student and member of the University community.

## What are my next steps?

1. Locate your Academic Advisor on your PAWS account.
2. Download the EAB app (keyword EAB Navigate).
3. Download the Outlook app (remember to check both Focused & "Other" inbox)
4. Schedule an Advising appointment once per semester.
  - Schedule online using the Navigate app
  - Or call/stop by your academic advising office
5. Prepare for your advising appointment:
  - Read your academic advisement report on PAWS and create a plan of study
  - Come to your appointment with questions, concerns, and ideas.
