TRANSLATION AND INTERPRETING STUDIES, MA

UWM's Translation and Interpreting Studies program offers programs of study in Research or Professional Translation, in four language pairs (French, German, Russian, and Spanish to English), and/or in Interpreting. TIS offers two coordinated degree programs: a TIS/MLIS degree with the School of Information Studies and a TIS/MBA with the Lubar School of Business. TIS also offers coordinated 5-year bachelor's/master's programs: BA in French, German, Global Studies or LACUSL and MA in Translation & Interpreting Studies.

UWM graduates who earn the MA in Translation and Interpreting Studies in any of the above forms reflect sufficient preparation for gainful post-graduation employment or admission to a doctor of philosophy program at a peer or aspirational institutions, and they will:

1. Be knowledgeable about the linguistic, literary, and cultural productions of their source and target communities in the past and present; be able to situate them within a historical, cultural and discursive (interdisciplinary and/or cross-cultural) context; be familiar with several major tendencies in critical and theoretical analysis, and be able to apply them to the study of these texts.
2. Provide nuanced and sophisticated discussions (in writing and in conversation) of linguistic, literary, and cultural works in English, and when appropriate, in the target language of their field of study. This includes the ability to analyze and to incorporate critical/theoretical frameworks into their written and oral discussions of literary or cultural works.
3. Be able to perform professional skills tied to the translation and interpreting field (e.g., translate/interpret accurately in their area of specialization; create and maintain terminology database resources; efficiently and accurately conduct research related to TandI; understand broad aspects of the TandI industry).
4. Conduct independent research in Translation and Interpreting Studies. This includes the ability to develop and delimit a research question, to conduct a systematic investigation of the question, and to present or evaluate research according to standard models of analysis and argumentation.
5. Be aware of career and post-graduate opportunities that their degree makes possible, which includes knowing how to search and apply for professional opportunities or advanced study related to the MA, and participating in professional activities such as colloquia, conferences, and meetings.

Admission Requirements

Application Deadlines
Application deadlines vary by program, please review the application deadline chart (http://uwm.edu/graduateschool/program-deadlines/) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (https://uwm.edu/onestop/dates-and-deadlines/).

Additional Requirements

Comprehensive Examinations

Candidates for graduation in all TIS tracks and concentrations must, under the direction of their major professor and the supervision of their exam committee comprised of relevant graduate faculty, complete and defend comprehensive examinations.

Thesis

Students completing the Research track must also complete and defend a thesis. An acceptable thesis is defined as one that represents an original contribution to the field of Translation and Interpreting Studies, of sufficient caliber for publication in a peer-reviewed journal.

Time Limit

Full-time students generally take two years to complete the program; part-time students within three to five years. The student must complete all degree requirements within five years of initial enrollment.

Accelerated Program Option

This program is offered as part of an accelerated bachelor's/master's program. For more information, see Accelerated Master's Degrees (http://catalog.uwm.edu/opportunities-resources/accelerated-masters-degrees/).
